

Willi Gertel

A life devoted to Sulcorebutia – Collection of pictures

© Under copyright

These books present pictures of Sulcorebutias visited by Willi Gertel along his many field trips. Pictures taken both in the wild and in the greenhouse are presented, and this illustrates the variability of the plants according to their growing conditions. They are companion books to [Sulcorebutia by Augustin, Gertel & Hentzschel](#) published in 2000 and to “Sulcorebutia - Kleinode aus Bolivien” by W. Gertel and W. Latin the special issue edited in 2010 by the Deutsche Kakteen Gesellschaft (DKG).

The legends of the pictures are written in simple English that can be understood by anybody. Only general purpose sections (introductionns, acknowledgements) are three-lingual, German, English, French.
