Kaktusy i Inne is a Polish Journal that started in 2004. About 40 pages per issue, many color pictures. Articles in Polish, most with an English summary, rarely bilingual Polish-English. Due to various reasons there are considerable delays in publication. Out-of-print issues are proposed here. For other back issues please email mrcactustommy@yahoo.com. Since 2017 (Vol. 9, issue 1), the journal is available online.
