After [de Candolle and Redouté](#), this is another historical series of fine illustrations with the corresponding descriptions (in German and French). It is made of 12 sets containing 5 color plates each. It was edited from 1838 to 1850. Volume 1 comprises the 6 leading sets (from 1838 to 1843), volume 2 the 6 last sets (from 1845 to 1850).

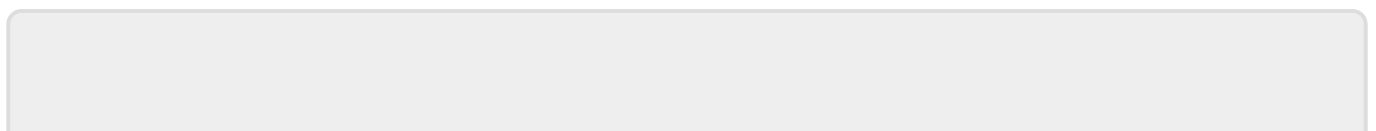

Some of the originals of the *Biblioteca digital del Real Jardín Botánico* were lacking. They have been replaced by the originals from the [Biodiversity Heritage Library \(BHL\)](#).
