

International Organisation of Succulent Plant Study - IOS

Repertorium Plantarum Succulentarum

© Under copyright (under CC license NC-SA)

Repertorium Plantarum Succulentarum (RPS for short) is published annually. Each issue lists the new names (new taxa and new combinations) of succulent plants published in the preceding year, together with a bibliography of literature devoted to the systematics of succulent plants. Up to 2009, RPS was available in printed form only. Since 2011 (n° 61, for 2010) RPS is available for free as a pdf file under a *Creative Commons* licence. You can download the digital issues using the download links below.
