

Xerophilia

© Under copyright

The journal "*Xerophilia - A passion for cacti and other succulents*" is a quarterly publication and it has been created for one main purpose: the free sharing of knowledge about xerophytic plants. It was initially bilingual, Romanian-English. Since issue 2013-6 it is fully in English with a Romanian abstract.

The publication - that takes advantage of international contributors - focuses on youth participation and on promotion and cultivation of xerophytic plants. You may also visit the [journal web site](#) (English page).
